- Problem Solving
- Creative Writing
- Time Management

LANGUAGES

- English
- Urdu

UI/UX DESIGN WORK(WEB)

Calligo

Designed an e-commerce website called “Calligo” where Calligraphies and paintings are sold. It consists of minimal, warm, sandy colors which are comfortable to eyes and look aesthetic.

Personal Portfolio Website

Designed complete UI for a personal portfolio website in Figma. Created wireframes, layout structures, and a consistent visual system. Focused on clean navigation and responsive layout planning.

Diagram Generator Website

Designed a website for diagram generation which consisted of many unique features like diagram generation with mark up language, choosing from templates for diagrams, domain specific generation and user profile management which contained features to generate diagram, pricing, profile management, learning etc.

Corporate Website(Landing Page)

Designed landing page of a website called “noventra.” I used corporate and professional colors and typography to design this page.

UI/UX DESIGN WORK(MOBILE)

- Designed frontend UI for a Flutter-based ticket booking app. Created user-friendly screens for seat selection, filters, and booking flow. Focused on intuitive navigation and modern UI patterns.
- Created mobile application design for a music player app with matching, beautiful typography and colors.

EXPERIENCE

-Revona Technologies(Nov 25-Jan 26)

UI/UX Intern
